CAYLEY DISTRICT CROP OUTLOOK

The crop out-look in this district is very much better than was generally supposed. Some farmers will have very fair crops on the whole, but they are an exception. As the general rule only on summerfallow and breaking will the yield be fair. And this should prove conclusively that—as one of the very best farmers in this district, or even in the province, said in our office—every time it pays to summerfallow pretty nearly every other year. It pays, he said, in the long run. He has tried it for years, and knows what he is talking about. However, last year was favorable and a large percentage of our crop is on land prepared that way. But there will be a short crop of hay, to make up for which a number of farmers are cutting their grain for feed, so as to carry their stock during the winter without the necessity of buying feed, as nearly every farmer has sufficient grain in store to carry over till next harvest.

You may talk about your farming districts in the north, south, east, and west, but when it comes right down to plain facts, township 17, range 28, west of 4, will not take a back seat from any district in the province. Let us enumerate just a few cases. Wm. Eagle-sham, on section 21 of the above township, commenced cutting his 145 acre field of winter wheat on August 1st, and those who have viewed his crop state that 25 bushels to the acre is a moderate estimate. Mrs. Crawford and J. O. Houghton, on section 33, have 200 acres between them which will yield at least 27 bushels to the acre. Charles Brown has 100 acres of spring wheat on section 28 which he began to cut last week and he will garner at least 2500 bushels of good plump grain from the field. Mr. Brown has also 25 acres of oats which look very promising. John McIntyre, on section 11, has 75 acres of wheat cut and in the stack. Joe Lumblood, in the same township, has 100 acres of good oats which compares with crops grown in other years. We could continue with lesser amounts, but space forbids all of which goes to prove that township 17 is a wonderfully productive district and will make a mighty good showing when final returns are sent in.

Methodist General Conference

On Aug. 14th the seventh quadrennial conference of the Methodist Church opened in Victoria and will last for two weeks. Delegates from all over the Dominion are in attendance, besides representatives of the denomination from Great Britain and the United States. This is the first time the conference has been held on the Pacific Coast. One of the most important matters to be taken up at this conference is church union.

That this conference has an easy task confronting it, a glance at the agenda will show. There are something over two dozen departments of work to be considered, fraternal messages from England, Ireland, the United States, North and South, and Japan, to hear,

besides questions of church union, ministerial supply, election of general officers, the establishment of a western book room, with various incidental and contingent matters, including nearly 400 memorials. The present secretary, Rev. T. Albert Moore, D.D., has spared no effort to have the program well organized, and with an executive officer of unequalled ability like Dr. Carman in the chair, schedule time will be made. Victoria's welcome is princely. Seldom has a young city had such a strain laid upon her as Victoria in entertaining the ministers of the "Crown" and of the "Cross" at the same time. The general conference received an invitation from the British Columbia government to attend the reception to Sir Wilfrid Laurier and party.

Nanton Disputes High River Claim (Albertan)

From the following letter received from the secretary of the Nanton lacrosse club, High River has not yet won the intermediate lacrosse championship, nor did the team win the game last Thursday, as reported in a High River despatch. The letter will explain how things stand at present between these two clubs:

Sporting Editor:
Your issue of this morning contained a despatch from High River, whereby that town claimed a victory in lacrosse over Nanton by a score of 1-0. This is contrary to the decision of the referee, who decided the game a tie, 0-0. We have yet to know how High River claims to be champions of the Northern district, as four games have been played and each team won one game and the other two were draws. After an unsuccessful attempt to get some assurance from the High River magazine last night as to the date on which the tie game at Nanton could be played off, the local officials have decided that High River hasn't sporting blood enough to journey to this fair town, but would suggest a sudden death game anywhere in Alberta as long as the place be neutral grounds, both teams to play strictly intermediate players, not so-called senior subs. (Signed)
SECRETARY-TREASURER,
Nanton Lacrosse Club.

Natural Gas Discovered

(Nanton News)

Considerable interest has been aroused by the discovery of gas in a well which Dr. Wynd is having drilled on his property in the southwest corner of town. The discovery was made Monday at a depth of 200 feet. The pressure is light, as would be expected at that depth; but the discovery is important as evidence that there is natural gas here if anyone has the necessary equipment and the will to go after it. The gas was ignited and burned, and the odor of gas is noticeable around the well. It depends upon the people of Nanton what this discovery may mean to them in the future. But it will be necessary to interest capital to test and develop it. Three veins of coal have been pierced in drilling this well; but coal has been struck in a number of wells around here, including the one which was drilled in front of the Bank of Commerce by the town four years ago; but this is the first discovery of natural gas in the immediate vicinity of town.

Caspell & Nablo

Accused of Shooting Cattle

Robt. Jones, of Gladys, was summoned before a magistrate at Okotoks recently by Jack Fiske, also of Gladys, accused of shooting a steer belonging to the latter.

Mr. Fiske, the prosecutor, was the first witness. He testified to seeing Jones shoot at his cattle one night with a 22 rifle. He said he was about 475 yards from Jones at the time, but was confident that he could identify both Jones and the rifle at that distance. He also testified as to having seen a dead steer belonging to him some days after and taking a 22 bullet from its carcass, with which it had evidently been shot.

Edmund Kelly also gave evidence. He had been working for Fiske, and his evidence was somewhat of the same nature as Fiske's. The evidence of both these witnesses was of an exceedingly vague and unsatisfactory nature.

Mr. Jones gave evidence in his own behalf and explained very clearly his side of the case. The magistrate in giving his decision, said he had no hesitation in dismissing the case, and was only sorry that according to the law regarding indictable offences he had not got authority to make the plaintiff pay the costs.

The evidence of the witnesses for the prosecution, in his opinion, showed no case at all, and he was

driven to the conclusion that several times they were talking about what they thought they saw, not about what they saw at all. The evidence of the witness Kelly was also of such a character as to lead to the conclusion that he was either of a very meddlesome or simple nature, or that he was not sticking to the whole truth. In either case very little reliance was to be placed on his evidence, while the plaintiff was shown to be actuated by motives of enmity against the accused.

Mr. Jones was declared to be perfectly clear of the charge.

For letter heads, bill heads and all kinds of job printing try the Hustler.

Mr. Barkley, representing the Barrie Carriage Co., was in town this week.

Principal McMeekin of Staveley seems to be enjoying his vacation in this district.

No matter what one pays for them they're worth it—Walk Over Shoes.—F. F. McDonald.

Those wishing to become members of the adult Bible class should hand their names to Miss Ethel Caspell.

The Granum Press has stopped publication. The financial depression is the reason assigned for the suspension.

Have you subscribed yet for the Hustler? If so, have you sent it to your father, wife's father, or to that friend?

Mrs. C. W. Kneen and little son are visiting friends in Claresholm this week. The little prattler is greatly missed by daddy.

P. Burns & Co. shipped six carloads of cattle from here last week; also the Vancouver and Prince Rupert Cattle Co. three carloads.

The Sunday school and public worship hour at Meadowbank school have been changed. The school will open at 2:30 and the service at 3:15.

S. W. Woodall of Calgary, representing the Case Threshing Machine Co., was in town on Monday, looking after the company's interest.

Lethbridge held a very successful Fair last week. The exhibits were good and the races excellent. The attendance for the three days amounted to 14,000.

A number of young men in Claresholm enjoyed a refreshing bath in the town reservoir one day last week. The water in that burg must have tasted good for a while.

The schools in this district are again in session. Last week Brae Side opened, Miss Jackson of Macleod being the new teacher. This week Brae Mahr and Mosquito Creek schools started.

At the session meeting held in the Presbyterian Hall on Sunday morning, it was decided to accede to the request of the many who have been asking for evening services. They will begin at once.

Cayley public school re-opened on Monday, the 15th inst., much to the joy of some of the papas and mammas, but with regret by most of the youngsters, whose summer vacation seemed all too short.

The season may have been dry, but to judge from appearances Cayley could have stood even worse. Last week no less than four binders were needed for several days to cut the crop on a Cayley grain field. Then all around the harvesting hum tells the world that a real famine must be some distance off.

Rev. Mr. Bushfield and family are on a two weeks visit to Vancouver, where Mr. Bushfield will attend the General Conference of the Methodist church. His pulpit is being supplied during his absence.

Cayley was visited with a very nice rain for several hours on Monday morning, which will, no doubt, be very beneficial for fall plowing and seeding. A few more such rains will make more than the farmers smile.

The townsie of Vulcan was surveyed last week, H. F. McDonald of Winnipeg having charge of the work. The survey is on the east side of the track, instead of the west, as the people out there had supposed it would be.

The price paid by Mr. J. O. Haughton for the east half of section 34-17-28, which he bought last week from Mr. Crispen, was \$7,500. Mr. Haughton is to be congratulated on being the possessor of a very good section of land.

The following gentlemen from Spokane, Wash., who are the wealthy owners of the C.C. Ranch, are in town: Alfred Coolidge, D. M. Drumbeller, Jack Drumbeller and N. Fred. Essy. They are looking after their interests at the ranch.

Miss E. Cora Hind, Commercial Editor of the Winnipeg Free Press, has been preparing a crop report of Southern Alberta for her paper. Miss Hind is considered an expert in her line, and she was agreeably surprised at the crops in this section.

The three names suggested for the new Presbyterian Hall, by the largest number of persons, are to be voted on before the service of next Sunday morning. They are as follows: Herdman Hall, Cayley Presbyterian Hall, and Knox Hall. The one getting the highest number of votes will be the permanent name. All interested are asked to vote.

The Ladies' Guild of the Presbyterian church are holding a sale of home-made baking on Saturday next. Here is a chance for all the bachelors to get something worth while for Sunday. The women deserve all the help and encouragement that they can get, on account of the many things that they have undertaken in connection with the new hall.

The people of High River are raising a strenuous kick about the C. P. R. sidetracking their town. They claim that High River is one of the most important towns on the C.P.R. in Alberta and is deserving of some recognition. The new short line between Lethbridge and Calgary, which will run with in four miles of the town, will run into Aldersyde, a flag station a few miles north of High River. This, they claim, will cut out a large portion of their eastern trade. They will endeavor to have the C.N.R. touch High River on its way to Lethbridge.

The Carmangay Sun says the contractors on the irrigation ditch and on the C.P.R. grading north of Carmangay are having difficulty in securing enough men to carry on their work. One contractor went to Lethbridge this week to pick up 50 men and came back with one. The employment agencies in Lethbridge stated that they had requisitions for over 200 men from different contractors, but could not get the men. This, we think, is a good sign and goes to show that although there is not much harvesting going on around here, there is work for anyone who wants it.

Florence Nightingale Dead

Florence Nightingale, the famous nurse of the Crimean war, and the only woman who ever received the Order of Merit, died on Saturday afternoon at her home in London, England. Although she had been an invalid for a long time, rarely leaving her room, where she passed the time in a half recumbent position, and was under the constant care of a physician, her death was somewhat unexpected.

Florence Nightingale was born in Florence, Italy, in 1820. She went through a course of training at the Protestant Deaconess' institute and subsequently studied French methods in Paris. When the reports of the sufferings of the troops in the Crimea reached England she sailed with a band of trained nurses for Scutaria, where she toiled until the British troops left the town in July, 1856.

Her nightly rounds of the wards, so eagerly awaited by the soldiers, won her the title of "The Lady With the Lamp." She was the first woman to be decorated with the Order of Merit and to be given the freedom of the city of London.

A Sight for the Nations

It really is a sight for the nations of the world to see General Botha, premier of United South Africa, upon the public platform appealing for the suffrage of his fellow citizens on the grounds that he is as British as Britain's native sons. It is all the more remarkable when it is noticed that the speech was delivered in Pretoria, the former capital of the former Boer Republic. This is no appeal to what may be remaining of racial hatred or prejudice. He asks the Boer for his support because he is as British as a native Briton. And this man ten short years ago was Britain's most determined and dangerous enemy, appealing to his fellow citizens of the Transvaal to drive the British into the sea, and out of South Africa entirely.

If all Britain's history were forgotten, save the Boer war and Botha's speech, the world of the future would know of her as the greatest exponent of peace and liberty and builder of nations that the world has ever seen.

Three harvest excursion trains, bringing some 1200 men to the harvest fields of the West, arrived in Winnipeg on Monday, and in a few hours nearly all had secured work in different sections of the prairie provinces. This does not look like a crop failure in Western Canada.
